# YOUNG PEOPLE WITH VALUES

CREATING 'YOUNG PEOPLE WITH VALUE' MODEL AT EUROPEAN LEVEL

## YOPEVA'S IMPACT

INCREASE THE  
EMPLOYABILITY OF  
YOUNG PEOPLE

INTRODUCE  
INITIATIVES AND  
FORMAL AGREEMENTS  
BETWEEN VET AND THE  
PRIVATE SECTOR

INCREASE THE NUMBER  
OF SOCIAL INCLUSION  
ACTIONS, NETWORKS  
AND PARTICIPANTS  
RELATED TO OR  
CREATED BY YOUNG  
PEOPLE AND WOMEN

## WHAT IS YOPEVA ABOUT?

Young People with Values (YoPeVa) aims to **elaborate a European training program for young people out of the educational and labour structures/standards**. Thus, they will be provided with a solid value system, the adequate skills and the competences to become integrated into the labour market or to re-join the standard educational path.

This all will be done, inspired by 'Jove Valor' good practice. YoPeVa will **analyse, improve, scale-up and disseminate the 'Jove Valor' (Young People with Value) good practice** developed in Spain by Fundesplai, to create the 'Young people with Value' model at European level, so that more European countries can benefit from the 'Jove Valor's' success factors. The key success factor of the program is that the young people get training at Fundesplai and work in a company at the same time from the first day. They sign a one-year regular working contract (not apprenticeship), get a salary, and are continuously accompanied for the whole year by tutors/mentors -in Fundesplai and in the company-.

## YOPEVA'S RESULTS YOU CAN EXPECT

### The Innovation Book

A comprehensive description of the model 'Young People with Values', providing amongst others background, the involved stakeholders, the training programme, working programme and recruitment system in order to establish the YoPeVa model, inspired by the 'Jove Valor' good practice. This result will be developed by the YoPeVa consortium and will serve as a basic guidance on how to scale-up the initial good policy methodology at European level.

### Online collaboration platform

Aimed to support staff, project experts and stakeholders to access project resources and results (guidelines, training courses, news & events information, forums). The online collaboration platform will basically be the online space where the aforementioned can be found. The platform will continue to exist after the project ending, contributing to the project sustainability, making sure that the project's target groups/stakeholders can access and benefit from the project's materials beyond the project's timeframe.

### Implementation plan Guidelines

Full guide to support organisations to prepare their Implementation plans and get them approved in order to deploy the model in their region. The Guidelines will involve the main actors needed for the implementation, but will also provide the needed guidance on tutoring of NEETs (Not in Education, Employment, or Training), support for businesses, financial planning and more.

Check [yopeva.eu](http://yopeva.eu) or [youngpeoplewithvalues.eu](http://youngpeoplewithvalues.eu)!

We already had a kick-off meeting!

The consortium discussed the 'Jove Valor' good practice, its analysis, the to be developed project results and more, during this virtual meeting.
