YOUNG PEOPLE WITH VALUES

CREATING 'YOUNG PEOPLE WITH VALUE' MODEL AT EUROPEAN LEVEL

DID YOU KNOW, THAT...?

ENGAGEMENT OF ALL
RELEVANT
STAKEHOLDERS IS
ESSENTIAL FROM THE
BEGINNING AND
THROUGHOUT.

AFTER THE PROGRAM,
THERE SHOULD BE
ALSO FOCUS ON POST-
PLACEMENT FOLLOW-
UP.

WHAT HAS BEEN DONE SO FAR?

Young People with Values (YoPeVa) aims to **elaborate a European training program for young people out of the educational and labour structures/standards**. So far, the partnership has come a long way in order to develop great results in order to help young NEETs (Not in Education, Employment, or Training) to get included in the labour market.

First of all, we have analysed the 'Jove Amb Valor' good practice and have researched similar initiatives in our partner countries (Spain, Portugal, Italy, The Netherlands, Romania and Sweden). This resulted in a **'Jove Amb Valor' Good Practice report**. After this analysis, we have worked on the **Innovation Book** which serves as a basic guidance on how to scale-up the initial good policy methodology at European level. Along with the Innovation Book, we provide the **Implementation Plan Guidelines**, which involve the main actors needed for the YOPEVA model implementation, but will also provide the needed guidance on tutoring of NEETs (Not in Education, Employment, or Training), support for businesses, financial planning and more.

YOPEVA'S INTERNATIONAL INTERMEDIATE EVENT!

It was a success! Our International Intermediate Event was originally planned in Suceava (Romania), but due to the COVID-19 pandemic, it was held online. However the Intermediate Event was still a great opportunity to gather stakeholders of the project and to discuss the YoPeVa project, including the issues, which were the incentives of the project. Do you want a recap? You can find it below!

The International Intermediate Event began with the YoPeVa coordinator's words on the importance of the YoPeVa project. Followed by the introduction of YoPeVa's "spin-off", a new project called YoPeVa Entrepreneur. YoPeVa Entrepreneur has already started and has been called to life to increase the entrepreneurial spirit of young people, making it a common alternative for their integration into the world of work.

All of the deliverables, which are ready or which are in process of development, have also been presented, such as the **Innovation Book**, but also the **Policy analysis and the involvement of the stakeholders**. After, the stakeholders have shared their experiences with the issue and how the YoPeVa model could be integrated in their practices. For example, Enerida Isuf (from CSDRRROM) discussed the problems young people are facing in Albania and how the YoPeVa model can help resolve the issue of youth employment and reducing the social exclusion of these young people. Christos Makliri from KOISPE DIADROMES, has talked about how the YoPeVa model would be applied in Greece.

Do you want to see the whole event? Click [here](#)!

We have a launched the YOPEVA video!

A short, but comprehensive introduction about YoPeVa and its deliverables, including experiences of companies that participated in 'Jove Amb Valor' good practice.
