

YOUNG PEOPLE WITH VALUES ENTREPRENEUR

Increase the entrepreneurial spirit of young people by making the initiative to create economic activities a common alternative for their integration into the world of work

WHERE ARE WE NOW?

We have finished developing an educational guide which we used as a solid foundation for the training courses, by which we could successfully complete our first result. After an evaluation process and discussions between the partners, the first setup of learning methodologies as well as a setup of the first course were made. In the meantime, both documents have also been reviewed by all partners and everyone has given their feedback on both the learning methodologies as the first course. This has resulted in fruitful discussions leading up to the Multiplier Event in Lisbon, where the first draft of the first course has been presented. Moreover, we have already taken a small look into the future, to see where our third result will take us. More information on this, will follow later on!

YOUNG PEOPLE WITH VALUES ENTREPRENEUR

MULTIPLIER EVENT LISBON

With the team of YoPeVa Entrepreneur we've had the second Multiplier Event in Lisbon. Fundação da Juventude welcomed participants from Portugal, Spain, Romania, Sweden, Norway, the Netherlands and Martinique to their premises.

Not only did we, from YoPeVa Entrepreneur, had the opportunity to present the learning methodologies with the corresponding first course, we also had some interesting guest speakers who shared their experiences with entrepreneurship among youngsters. For example, Cláudia Santos, from Fórum Turismo explained why entrepreneurship is so important for developing skills for young people.

Moreover, former director of Startup Lisboa and current Secretary of State for Labour of the Portuguese Government, Miguel Fontes, shared his vision on entrepreneurship. One of the things that he underlined was the importance of collaboration between entrepreneurs and how important it is that entrepreneurship is valued and why it should be fostered.

The event has been a great success in getting an even better understanding of the importance of developing entrepreneurial skills among youngsters and thus also the importance of YoPeVa Entrepreneur. In addition to that, it has been a great opportunity to show you what we have already developed. As soon as all courses are finished, we will share them with you!

IMPORTANCE OF COLLABORATION BETWEEN ENTREPRENEURS
-MIGUEL FONTES

WHAT'S NEXT?

In the meantime we have already taken a small look into the future. First, we will finish the complete course including certain soft and hard skills necessary for an entrepreneurial journey. Furthermore, we will work towards our third objective and brainstorm about developing the support system. More information will follow, so keep a close eye on us to stay updated!
