MULTIPLIER EVENT SUCEAVA

On November 2nd, 2023, the third YoPeVa Entrepreneur Multiplier Event was held in Suceava. The event, organized by ACDC, gathered stakeholders, professionals, and esteemed organizations to share knowledge, insights and most importantly to pave the way for collaborative initiatives aimed at empowering young entrepreneurship in Europe.

During the Multiplier Event the results so far were presented, including the YoPeVa Entrepreneur program, system, and the training course. You can read more about this on the next page!

The event also included some valuable discussions, which showed diverse perspectives on the challenges and opportunities of young entrepreneurship. Moreover, a panel discussion among regional stakeholders provided insights into the regional entrepreneurial landscape and its challenges and opportunities.

To provide a solid methodology that transcends borders, we have developed a guidebook to offer guidelines to any EU country for facilitating an entrepreneurial journey for young people with values. It includes insights from best practices, expert knowledge and a deep understanding of the challenges faced by young entrepreneurs.

The key components of the guidebook are as followed:

- Tailored support framework
- Training for success
- Mentorship and accompaniment
- Evaluation for continuous improvement
- Scaling and sustainability strategies

As for now, the guidebook is still under development, but as soon as it is online, we will let you know!

YOPEVA ENTREPRENEUR SYSTEM

To everyone who works with young entrepreneurs, we provide you the YoPeVa Entrepreneur System. This is an integrated tool that helps organizations working with young people to:

- Detect potential young entrepreneurs and to analyse and identify their strengths and weaknesses.
- Help counsellors and coaches to define a training and supporting pathway for each individual need.
- Effectively provide services to youngsters along their starting-up processes.
- Monitor and evaluate both the individual as the collective results.

The system focuses on two big target groups, users, and customers. Users are the young people with values or the potential young entrepreneurs, whereas the customers are professionals who support these youngsters. This last group could include counsellors, coaches, mentors, teachers, managers etc.

Moreover, the system will provide multiple possibilities:

- Training:** Access to the YoPeVa courses.
- Networking:** Interchanging experiences, discuss with experts and fellow entrepreneurs and obtain information from or give information to experts and/or fellow entrepreneurs.
- Discussion:** A forum is provided where general and issues of common interest can be discussed among experts and entrepreneurs.
- Resources:** A full list of different resources including information, tools, training, funding, and counselling.

You can use and access the system now! Take a look at the courses, explore the resources, and visit the discussion forum. [Click here](#) and sign up for the YoPeVa Entrepreneur System!
